

Wellness Retinal Imaging Consent Form

HEALTHY EYE

DISEASED EYE

As part of your comprehensive eye exam, CVC Vision Center - Dr. Jeffrey Rautio recommends a special diagnostic procedure called *Wellness Retinal Imaging*. This procedure consists of capturing a digital image of the retina or the back part of your eye. This is not an x-ray or ultrasound procedure; and nothing will touch your eye. We are simply taking a digital photo.

This permanent record is very valuable in assessing the current health of your eye and for safeguarding the long-term health of specific structures of your eye, including the retina, optic nerve, macula, and blood vessels. It will also serve as an initial point from which to compare, as we follow your health in subsequent years.

The normal fee for retinal imaging is \$75.00. To keep it affordable and safeguard your ocular health, we are offering an ***“Introductory Special”*** price of just \$29.00.
